Subject: Aldicarb - projected crop treated (new uses - orange and grapefruit)
Location: Marion's office

Start: 9/19/2019 1:30:00 PM
End: 9/19/2019 2:00:00 PM
Show Time As: Tentative

Required Attendees: Johnson, Marion; Suarez, Mark

Hi Mark,

I was hoping that both Marion and I could touch base with you on the projected crop treated for the new aldicarb uses.

HED ran the dietary with the rough numbers that you provided me with the other day for grapefruit (50%) and oranges (30%). In our discussion I believe you said that these were likely to be low end, as they do not include the pest Asian citrus psyllid.

Ex. 5 Deliberative Process (DP)

Thanks.
Debra
